

# Martin Pospěch

Software Engineer, Consultant, Smart Contracts

## PERSONAL DETAILS

---

*Address* Ostrava, Czech Republic  
*Phone* (+420) 608066260  
*Mail* martin@pospech.cz  
*Git* <https://gitlab.com/users/thisandthat/projects>  
*Web* <http://martin.pospech.cz>

## EDUCATION

---

### Bc. Information Technology

*Brno University of Technology, Brno, Czech Republic*  
unfinished – completed ca. 80% of courses and thesis

### Erasmus Exchange

*Tallinn University, Tallinn, Estonia*  
2 semesters

## PROJECTS AND EXPERIENCE

---

### A subscription management platform

*Brno University of Technology, Red Hat Czech, s.r.o.*

I built a prototype of a service that manages information about users and subscriptions, and gathers basic usage data. It then processes the data and presents charts and diagrams to help understand users' behavior.

### Tezos related work

*self-employed*

I wrote a series of articles about building smart contracts on the Tezos platform. I built oracles to access real world data from the blockchain and an automated insurance system using the Tezos smart contract language Michelson.

## EXPERTISE

---

*Technical* Tezos, Michelson, smart contracts, oracles, blockchain  
Go  
JavaScript, Vue  
REST, API design  
database schema design, SQL, etc.  
technical writing  
git, npm

*Languages* English  
Czech  
Estonian (A2-B1)
